

Electric Meter Instructions at Bank Farm

To Add Credit to Your Meter

- Insert your Smart Card into the Meter's slot with the chip facing the left hand side.
- Wait until the Meter reads 'SUCCESS', then remove Smart Card.
- Your Meter will then display your electric credit in Kilowatt hours.

During Your Stay

- Please keep an eye on your electric usage - the more electric you use, the more you will need to top up your Smart Card.
- When your electric becomes low (not empty) - the Meter will read 'TOP UP'. You will then need to bring your Smart Card down to Reception in order to add more credit.
- Please note that there is a 10amp trip feeding the meter. If you exceed 10amps, your trip will blow.
- If you lose your Smart Card, a replacement card costs £5.00.

To Withdraw The Credit From Your Meter (receive refund)

- Please hold down the red button (keep button pressed throughout the whole process).
- Insert your Smart Card back into the Meter's slot, with the chip facing the left hand side.
- Please wait for the Meter to read 'b_good'.
- Remove the card from the Meter.
- Release red button and the Meter will read 'NO CREDIT'.
